

CEREC ACCEPT

Hands-on education

YOU'RE INVITED!

Join us for this exclusive 2-day course to experience firsthand how CEREC® technology from Dentsply Sirona can advance your practice.

- Learn from top CEREC doctors in the U.S.
- Complete multiple cases from your practice with your CEREC mentor
- Be one of a select, small group attending for an intimate learning environment

When: August 20-21, 2022

Where: Spear Campus, Scottsdale, Arizona

Hotel: Fairmont Scottsdale Princess

Event meals and a scheduled shuttle between the recommended hotel and the facility will be provided during your stay for the event.

WHAT IS ACCEPT?

Talk to your [Patterson representative](#).

ACCEPT is a program designed to remove the mystery of CAD/CAM integration by engaging dentists who are investigating the technology with a hands-on course that is guided by some of the most experienced and successful CEREC users in the dental community.

WHY ATTEND?

The ACCEPT program is designed for dental practices that do not own CEREC technology. At CEREC ACCEPT, you have the unique opportunity to interact with your colleagues who have successfully integrated CAD/CAM into their practice, which in turn gives you the chance to have your questions answered by some of the most respected CEREC users in the dental community.

PROGRAM PRESENTERS

We're proud to feature these national leaders in digital dentistry as our CEREC ACCEPT speakers.

Dennis J. Fasbinder, DDS, ABGD

Dr. Fasbinder is a clinical professor at the University of Michigan School of Dentistry. He is board certified by the American Board of General Dentistry and maintains a part-time private practice. Dr. Fasbinder directs the Computerized Dentistry Unit, which is dedicated to research and education on CAD/CAM dental systems and ceramic materials using the CEREC system. He has presented introductory to advanced CEREC courses for over 25 years.

Andrew Hall, DMD

Dr. Andrew Hall, a 2001 graduate of the University of Florida College of Dentistry, maintains a private practice in Colorado Springs, Colorado, with an emphasis on digital and esthetic dentistry. Dr. Hall has been a CEREC user since 2005, educating internationally on dental CAD/CAM technology, and serves as a CEREC basic and advanced trainer and beta tester for Dentsply Sirona.

PROGRAM MENTORS

Throughout the program, you will be mentored by experienced CEREC technology users. These dental professionals have integrated digital dentistry to the fullest in their practices and are excited to work with you.

DAY 1 TOPICS
